Programme

Joint International Congress 14th MPU - ISM Congress 2014 Programme

Hrs 25 August 26 August 27 August 28 August 29 August

Plenary sessions

09:00-11:00

Challenges and prospects
new frontiers in plant pathology (3 invited speakers)

iPM and sustainable use of pesticide (3 invited speakers)

Moulds and mycotoxins (1 invited speaker)

Coffee Break Coffee Break Coffee Break

11:00-11:30

Parallel sessions

(5 speakers) (5 speakers) (5 speakers)

the presentations will be selected based on the evaluation of the abstract

Phytopathology Phytopathology Phytopathology Mycotoxin Phytopathology Mycotoxin

INTERNATIONAL ORGANIZING COMMITTEE

Dilek Heperkan, Chair, Istanbul Technical University, Turkey
Perin Konya Telli, Vice-chair, Head of the Turkish Phytopathology Society
Alan Phillips, President of Mediterranean Phytopathological Union
Antonis Logrieco, President of International Society of Mycotoxicology

14th Mediterranean Phytopathological Union & international Society of Mycotoxicology and offers a special discounted rate for the international participants. For more information please visit congress website.
Dear Colleagues,

We are pleased to invite you to participate in one of the most important events for plant pathologists and mycotoxicologists in the Mediterranean region. The 14th Mediterranean Phytopathological Union (MPU) Congress will be organized together with the International Society of Mycotoxicology (ISM). For the first time, it is a great pleasure for the Local Organizing Committee to host this Joint International Congress in Istanbul between 25–29 August, 2014. We believe that the Joint International Congress will attract top scientists, decision and policy makers, high-tech companies, start-up companies, entrepreneurs, researchers and students from all over the region. Production of agricultural products, seed and sweding development, plant nutrition and genetics, genetically modified plants, contaminants of biological origin, pesticides and mycotoxins will be covered during the congress. Issues such as the methods and technology concerning the existence, monitoring and protection of these contaminants of biological and chemical origin alongside climate change and the impact of global warming on plant growth, storage and preservation of agricultural products will be addressed by national and international experts. The purpose of this Joint International Congress is to address global and regional issues related to production processes of agricultural products and to develop solution-based strategies. With your support and sharing as participants this Congress will contribute to science, world trade, world economy and public health. As the International Congress Organizing Committee, we will be honored to welcome you to this important event in Istanbul.

INVITATION

CONGRESS HEADLINES

Concurrent sessions in phytopathology:
- Applications of cutting edge technologies in disease management
- Advanced safe technologies for postharvest disease and pest management
- Neurological, cellular and molecular aspects of the fava pea relationship
- New Diseases of Mediterranean climate crops
- Regulations
- Genetic variability of plant pathogens
- Fungi biodiversity
- Genome sequence and plant pathology
- Breeding strategies for plant resistance
- Disease epidemics and forecasting
- Generating a useful tool for plant protection and food safety

Control of plant diseases
- Biological control
- Natural compounds and plant disease control
- Chemical control
- Control of soilborne plant diseases
- Management of forest diseases
- New approaches in plant disease control

Diagnostics and detection methods of plant pathogens
- High throughput, generic, quick and cheap diagnostics
- Identification and validation of existing diagnostic protocols
- Host generation sequencing technologies
- Pathogenicity and phylogenetic, virulence, nematodes

Toxic fungi and Mycotoxins
- Historical and emerging mycotoxin concern in Mediterranean Basin
- Integrated strategies to minimize mycotoxin risk

IMPORTANT DATES

Abstract Submission: 3 January – 27 April 2014
Announcement of Accepted Abstracts: 31 May 2014
Earlybird Registration: 2 January – 8 June 2014
Registration: 9 June – 17 August 2014
Late Registration: 17 August – 27 August 2014

REGISTRATION INFORMATION

ONLINE REGISTRATION IS AVAILABLE AT www.mpu-ism2014.org

Participants can find their registration fee from the chart below.
